RE: Request for CZM Consistency Review of Entergy's Interim Spent Fuel Storage Installation

Dear Ms. Sheehan,

The Massachusetts Office of Coastal Zone Management (CZM) has received your correspondence on behalf of EcoLaw and the Pilgrim Coalition asserting that Entergy's plans for an Interim Spent Fuel Storage Installation (ISFSI) are subject to CZM's federal consistency review.

CZM is reviewing your letter and the points raised therein, and we are gathering additional information related to the proposed activity. At this time, CZM is not in receipt of notification by Entergy of this proposed project nor a consistency certification for federal consistency review. We will provide a response to your correspondence as soon as our review and analysis is complete.

Sincerely—

Bruce K. Carlisle
Director
